SKILLS

Languages: JavaScript, Python, Java, SQL

Core: Data Structures & Algorithms, OOPS, DBMS, Software Testing

Full Stack: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Tools: Git/GitHub, Postman, JIRA, Confluence, Vercel

EXPERIENCE

Software Development Intern, Bytedocker

Jun 2025 – Sep 2025

- Designed and deployed a full-stack Tournament Management Platform supporting live scoring, role-based dashboards, and match analytics.
- Improved backend performance by 30% through optimized Node.js APIs and MySQL query indexing.

Software Development Intern, Geekworkx Technologies

Jan 2023 – Jun 2023

- Developed a Restaurant POS system handling order processing, inventory tracking, and automated billing using React, Node.js, and MySQL.
- Reduced manual billing errors by 40% via real-time validation and database-driven invoice generation.

Frontend Web Development Intern, Insight Brandcom Pvt. Ltd.

May 2023 – Jul 2023

- Built and deployed the company's official responsive website with reusable React components.
- Enhanced user engagement and reduced load time by 25% through UI optimization and asset compression.

PROJECTS

AI-Powered College Assistant

2025 — [GitHub](#)

MongoDB, Express.js, React.js, Node.js, JWT, NLP, LLM Integration

- Architected a role-based academic assistant supporting Students, Teachers, and Admins with secure JWT authentication and controlled access to 5+ academic modules (attendance, marks, subjects, timetable, notices).
- Implemented NLP-based intent classification to process 100+ user queries, routing factual requests to MongoDB and conversational queries to an LLM, ensuring accurate data retrieval and optimized API usage.

Full-Stack Food Delivery Platform

2025 — [GitHub](#)

React.js, Node.js, Express.js, MySQL, Razorpay Payment Gateway

- Developed a scalable multi-role platform (Customer, Partner, Admin) with secure authentication, real-time order lifecycle management, and integrated Razorpay payment processing.
- Designed RESTful APIs and optimized relational database schemas handling 1000+ transaction records with efficient query performance.

EDUCATION

Master of Computer Applications, B.M.S. College of Engineering

Dec 2024 – May 2026 (Expected)

CGPA: 8.73/10

Bachelor of Computer Applications, NERIM Group of Institutions

Oct 2020 – June 2023

81.25%

CERTIFICATIONS & ACHIEVEMENTS

- 2nd Prize – Hack-The-Work 2025 Hackathon, B.M.S. College of Engineering (with Vipra Software Pvt. Ltd.).
- Scrum Fundamentals Certified (SFC) – SCRUMstudy.
